

## Electronic Service Record Available for Enlisted Sailors

The Navy has officially launched the Electronic Service Record (ESR) within the Navy Standard Integrated Personnel System (NSIPS).

The vision is for ESR to replace the current paper-based Field Service Record with an electronic records management

application, automating most service record maintenance, and providing individual service members, personnel offices (PERSO) and customer commands secure worldwide access to service record data via the Internet.

All active-duty and drilling Reserve Sailors can access their ESR by signing up for a self-service ESR account on the NSIPS Web page at <https://nsips.nmci.navy.mil/> using a Common Access Card (CAC)-enabled computer. Sailors will be able to view their own records, as well as make minor changes, including emergency contact information, home and mailing address, official email address, and personal info such as race, religion and ethnic code. Navy Reserve Sailors can also put in their civilian employment information.

Commanding officers, executive officers, command master chiefs, and pass liaison representatives may obtain read-only access for Sailors in their Unit Identification Code by contacting their NSIPS access manager.
